

Analyze, repair, and restyle with ease.

DocXtools is a toolkit that helps repair and style documents, and cuts review time in half. It helps meet client demands, improve collaboration, and quickly produce high-quality documents.

Why DocXtools?

The delivery of legal documents is an intricate, collaborative process. On complex matters with multiple contributors, tight deadlines, and reduced support staff, the result is all too often an unstable document with inconsistent formatting and style.

Industry Standard

Over 75 percent of Am Law 250 and more than 50 international law firms use DocXtools to streamline document production.

Document Stability

Fix any issue that makes a document unstable and apply your firm's house style with a click.

Emergency Repairs with DocER™

If your document is beyond repair, send it to us! We'll fix it and return it typically within two hours, with a report detailing what was wrong and how it was repaired.

Attorney
Littler Mendelson

"With DocXtools, I can fix any unstable document by taking some really quick steps – which allows me to get back to doing actual work."

Key Features

Stoplight Analysis

In one click, discover problem areas within your document and understand severity with a “red, yellow, green” status.

Clean Up and Repair

Quickly fix document instabilities with tools ranging from a quick clean to a complete rebuild.

Apply Styles

Re-style documents, apply comprehensive styles by category (numbering, body, titles), or import styles from other templates.

Document Conversion

Assess document readiness for conversion, then convert file types while preserving your layout.
